# VINBasic™ Moto & Powersports

VINBasic™ Powersports provides decoding of Year, Make, Model, and Trim for motorcycles, scooters and select off-road powersports vehicles.

VINBasic™ Powersports supports a variety of needs including VIN decoding, validation, and verification. VINBasic™ Powersports is frequently used to normalize vehicle data to the OEM/brand compliant standard for vehicle descriptions, making this data both consumer friendly and franchise dealer compatible. VINBasic Powersports is comprised of i) a motorcycle and scooter only product, and ii.) both motorcycle/scooter plus ATV/UTV.

VINBasic™ Moto: Street legal motorcycles and scooters for 49 OEMs including all major brands through to most of the smaller brands that have production output that meets criteria for distinct VIN "Make" encoding.

VINBasic™ Powersports (Includes Moto): This data set covers ATV and UTV for 9 major brands as follows: Arctic Cat, Can-Am, Honda, John Deere, Kawasaki, KYMCO, Polaris, Suzuki, and Yamaha with more brands scheduled for addition in 2016.

**File Format & Delivery:** Delimited, FTP, daily updates available, and Web Service API

**Data Scope:** 1996-Current Shipping, Street legal motorcycles and scooters. 2005-Current Shipping, ATVs, and UTVs. US and Joint US/CAN Market Destination

## Multiple data samples:

VIN Pattern	Vehicle Type	Year	Make	Model	Trim	Country
JH2PE053E	Motorcycle	2014	Honda	CRF	450R	Japan
ZDM1RBSVE	Motorcycle	2014	Ducati	Monster	1200	Italy
RFBLM20SF	ATV	2015	KYMCO	Mongoose	300	Taiwan
3JBKGAN2F	ATV	2015	Can-Am	Outlander	800R	Mexico
4UF15MPVF	UTV	2015	Arctic Cat	Prowler	550 XT	U.S.
4XAVFE99F	UTV	2015	Polaris	RZR XP 4 1000	EPS	U.S.

## Use Cases:

- VIN Decoding
- VIN Validation
- Data Cleansing & Normalization
