**GENERAL RELEASE**

## **DataOne Software Announces Promotion of Jake Maki to General Manager**

**BEVERLY, Massachusetts, Feb. 18, 2010** – DataOne Software, a division of Dominion Dealer Solutions, and a leading provider of automotive content and media announced today that Jake Maki has accepted the position of General Manager for DataOne Software at the Beverly, MA location.

Before joining DataOne Software in 2007 Jake was a Senior Consultant and Account Manager with MDC Associates and traveled internationally within the medical device industry. Prior to his acceptance of General Manager at DataOne Software, Jake held a role as production manager for the data analysis and OEM relationship group within DataOne Software.

DataOne's full automotive data and rich media solutions are utilized across the automotive industry for dealership marketing solutions ranging from inventory management and Web site design to CRM and service center solutions to key portals and classified listing sites.

### **About DataOne Software**

Since 1999, DataOne Software has fulfilled unique content and data needs in the automotive marketplace providing businesses with cost-effective data integration and support for rapid technology development. The company sources automotive and related content including data and media, and was one of the first companies to make automotive content available by web service. Today, DataOne Software, as a division of Dominion Dealer Solutions, provides data and materials to most segments of the automotive industry including insurance, warranty and service contract sectors, transportation, federal and state agencies, newspaper and print, as well as the auto dealer marketing sector. For more information about DataOne Software automotive content, visit [DataOneSoftware.com](http://DataOneSoftware.com) or call 877.438.8467 or e-mail [sales@dataonesoftware.com](mailto:sales@dataonesoftware.com)
